

# TIEU ANH KHOA

## FRONT END DEVELOPER

---

Ho Chi Minh City, Vietnam • tieukhoa.dev@gmail.com • +84-329-999-515

### SUMMARY

---

Seeking an entry-level position employment where I can develop my available abilities as a Front-end developer specializing in React. My expertise includes working with Typescript, Redux, Redux Saga, Bootstrap, and MongoDB.

I am eager to continue learning and am seeking a dynamic work environment where I can further enhance my skills and make valuable contributions.

### SKILLS

---

#### Technical:

- Programming Languages: JavaScript, TypeScript, Java.
- Framework: Express, Bootstrap, Tailwind, NextJs, Spring Boot.
- Library: React, Redux, Redux Saga, Ant Design, MUI.
- Database: MySQL, MongoDB, SQL Server.
- Version Control: Git, SVN.

**Language:** B1 Certificate in English.

### WORK EXPERIENCE

---

#### INDIVIDUALS SYSTEM

##### JavaScript Developer Intern

8/2023 – 10/2023

#### Responsibilities:

- Utilizing TypeScript along with React, HTML, and SCSS to design the chart interface for the rainwater measuring website.
- Designing charts displaying rainfall using the Chart.js library.
- Constructing login and logout pages utilizing JWT for authentication and token allocation.
- Connecting and utilizing MongoDB to store data.
- Utilizing Redux Saga to manage side effects.
- Utilizing Express for the backend and TypeScript as the language to design RESTful APIs.
- Developing and optimizing features to improve performance.

---

#### AMAZING TECH

##### Frontend Developer Intern

4/2023 – 7/2023

#### Responsibilities:

- Utilizing JavaScript, HTML, and CSS combined with React to design the website interface.
- Collaborating with the team leader and team members to provide solutions for identified issues.
- Designing the game page interface including rewards, and implementing functionality to call APIs from the backend providing vouchers to users upon their first course purchase.
